Public art efforts continue

From Chairman Kal Kassir:

Our efforts in working side by side with the Virginia Beach Public Art Foundation to achieve our goal of raising \$350,000 to privately fund the public art to be displayed on the new Lesner Bridge has been extremely successful and gratifying.

Donations from individuals, civic leagues, homeowners' associations and corporate sponsors from both the Bayfront Communities and throughout the city are a true gesture of pride in our city and the community we live in. The campaign will continue this spring and summer and any fund raised beyond our goal will be dedicated to future public art projects elsewhere throughout our City.

The large scale art sculpture created by Donald Lipski, an internationally known artist, named "The Canoes" is currently being fabricated in Denver and scheduled to be erected in late June on a platform next to the sidewalk on the southwest side of the bridge overlooking the city's boat launch marina.
